SEO / GEO / AEO Audit Report

FULL AUDIT · WITH THE 30–100 LEADS-A-DAY GROWTH PLAN

SEO	GEO	AEO
7	7	8
On Track	*On Track*	*Strong*

4 November 2026

Claude Skill and Plugin by Alex Labat

Executive Summary

csrushil.com is now one of the cleanest CA-firm sites a crawler can read: all 182 sitemap URLs return 200 with unique titles and descriptions, one H1, self-canonicals, full alt text, and a connected schema graph (firm, CA Rushil C S, service, FAQ, breadcrumb) on every page. The reason it does not yet produce 30 leads a day is off the website: 58 Google reviews against 200–1,200 for the map-pack firms, wrong "Open 24 hours" hours on the Business Profile (as checked on 2 Nov), no ICAI membership or firm registration number shown, and few listings or links from the sites that rank for "CA firm in Chennai". The fastest new leads will come from urgent, high-intent pages (GST and income-tax notices, NRI tax), which are currently the thinnest money pages at 1,400–1,700 words. 30 leads a day is realistic within roughly 6–12 months if the review engine, listings and the written per-service plans are executed; 60–100 a day needs a content team, an intake team and 12–24 months, and no firm can guarantee the #1 spot for every service.

Dimension	Score	Status	Key takeaway
SEO	7/10	**Needs Attention**	Technically near-flawless on all 182 URLs; rankings held back by authority (reviews, listings, links) and thin urgent pages.
GEO	7/10	**Needs Attention**	Strong entity graph, llms.txt and cited sources; missing ICAI numbers and outside mentions that AI engines use to pick a firm.
AEO	8/10	**Good**	Direct answers, tables and FAQ markup on most money pages; 44% of H2s site-wide are questions.
Combined	22/30		Technical work is largely done; the next gains come from authority and execution.

Status cells: green = Good, amber = Needs Attention. Scores rate what the site itself does; current Google positions (section 9) reflect authority as well.

Pages Audited

Every URL in the live sitemap was fetched on 4 November 2026 (182 pages, 0 errors, average HTML response 651 ms from Chennai-side tests, average HTML size 152 KB). Page families:

Family	Pages	Notes
Homepage and company pages	8	Homepage 2,798 words, 293 KB HTML (heaviest page). /career 120 words, /contact 430, /videos 468 (thin).
Service money pages	61	Service + FAQ + HowTo schema; 'Reviewed by CA Rushil C S' with date.
Chennai area pages	19	Each links the four main money pages and the other areas.
Tamil Nadu and India city pages	31	Served online from Anna Nagar; distinct local content.
Blog posts	64	BlogPosting schema; 'Need CA assistance?' callout to the matching money page.

The full URL list with word counts and schema flags is in the appendix.

SEO Analysis

Score 7/10. On-page and technical signals are near-perfect; visibility is limited by authority and by thin urgent pages.

Technical On-Page

Signal	Finding	Status
Title tags	181 of 182 are 30–60 characters, no duplicates. /chartered-accountant-anna-nagar-chennai is 62 characters.	Good
Meta descriptions	182 of 182 are 120–160 characters, no duplicates.	Good
Heading hierarchy	Exactly one H1 on all 182 pages.	Good
Canonical / indexability	Self-referencing canonical on all 182; no noindex; /chartered-accountant-chennai 301s to /.	Good
robots.txt and sitemap	Googlebot, Bingbot, Applebot, GPTBot, OAI-SearchBot, ChatGPT-User, PerplexityBot and ClaudeBot named and allowed; sitemap lists 182 URLs, all 200.	Good
Images	370 images, all with alt text; og:image on every page.	Good
Internal links	Header 88→28 and footer 99→30 links; silo blocks per service group; area pages link the money pages. In-body links are low on /career (1), /contact (1) and /how-we-work (4).	Needs Attention
Page weight and speed	Average HTML 152 KB, homepage 293 KB (inline JSON-LD and React payload). Core Web Vitals not measured here: run pagespeed.web.dev on the homepage and the four money pages.	Needs Attention

Content Quality

Signal	Finding	Status
Depth	Average 1694 words. Money pages for Pvt Ltd, virtual CFO, GST litigation, statutory audit and transfer pricing run 3,400–4,900 words.	Good
Thin pages	/career 120 words, /contact 430, /videos 468. /career is the natural articleship page for the many 'CA firms in Chennai' searchers who are CA students.	Needs Attention
Urgent-intent pages	GST notice reply 1,690 words (4 of 12 H2s are questions), income tax notice reply 1,570 (4/10), NRI tax 1,412 (4/11). These buyers convert fastest and the pages are the thinnest.	Needs Attention
Freshness and authorship	110 pages show 'Reviewed by CA Rushil C S · Updated <date>'.	Good
Coverage vs demand	All 41 services have a live page, but the 11 growth plans propose roughly 250 supporting, comparison, problem and tool pages that are not built yet.	Needs Attention

Structured Data

Signal	Finding	Status
Entity graph	AccountingService (#organization) and Person (#ca-rushil) on all 182 pages, with NAP, geo, hours, credentials and sameAs.	**Good**
Page schema	Service 111, FAQPage 141, BreadcrumbList 182, HowTo 88, BlogPosting 64 pages. FAQ text matches the visible FAQs on the money pages.	**Good**
ICAI identifiers	ICAI membership number and firm registration number are not set, so neither schema nor the trust line can show them.	**Missing**
Ratings	No Review or AggregateRating markup, which is correct under ICAI rules and Google's self-serving review policy.	**Good**

GEO Analysis

Score 7/10. AI engines can read and cite the site; they need more outside evidence that the firm is a leading Chennai choice.

E-E-A-T Assessment

Signal	Finding	Status
Named expert	CA Rushil C S (ICAI, FAFD, Start-up Mentor) reviews 110 pages and authors the blog; Person schema links his LinkedIn.	**Good**
About and team	/about-us and team photos exist; /how-we-work explains the engagement process and the s.144 independence rule.	**Good**
Contact / NAP	Same name, address and phone on every page, in schema and on the Business Profile.	**Good**
Business Profile hours	Showed 'Open 24 hours' on 2 Nov while the site says Mon–Sat 9:30–6:30. A NAP mismatch that can cost map-pack placement.	**Critical**
Regulatory trust	ICAI membership and firm registration numbers absent everywhere.	**Missing**
Reviews	58 Google reviews at 4.8 (2 Nov). Map-pack firms for 'CA firms in Chennai' show 200–1,200.	**Needs Attention**

Content for AI Synthesis

Signal	Finding	Status
Factual density	Tables on 102 pages: government fees, TN stamp duty, appeal ladders, forms, calendars.	**Good**
Clear claims	111 pages open with a 40–60 word direct answer (#lead-answer or #direct-answer).	**Good**
Source citation	Every page links at least one external source (MCA, CBIC, RBI, income tax portal, GSTAT).	**Good**
Outside mentions	LinkedIn company page has about 100 followers; no Facebook business page; not yet on ICAI CA Connect, ClearLevel or RevenueBase, which AI answers cite for 'CA firms in Chennai'.	**Needs Attention**

Technical GEO

Signal	Finding	Status
llms.txt / llms-full.txt	Both live (23,182 and 6,625 bytes) with core services, high-ticket services and the engagement process.	**Good**
AI crawler access	All major AI crawlers explicitly allowed; content is server-rendered HTML.	**Good**
HTTPS and security headers	HTTPS with HSTS preload.	**Good**

Signal	Finding	Status
sameAs	LinkedIn, Instagram and the Google Business Profile. No Facebook business page or Wikidata item.	**Needs Attention**

AEO Analysis

Score 8/10. The answer formats are in place on the main pages; extend them to the rest.

Featured Snippet Eligibility

Signal	Finding	Status
Direct answers	111 pages have a 40–60 word answer under the H1 or first H2.	Good
Question headings	44% of H2s site-wide are questions. Money pages are 70–90%; /goods-and-services-tax, /direct-tax, /annual-compliance-package, /form-15ca-15cb-chennai and the urgent notice pages are below 40%.	Needs Attention
Tables and lists	102 pages carry HTML tables; steps are numbered lists.	Good

Structured Answer Formats

Signal	Finding	Status
FAQ markup	141 pages. Google shows FAQ rich results for few sites since 2023, but AI engines still extract them.	Good
HowTo markup	88 pages; the steps are visible on the page.	Good
Speakable	111 pages mark the lead answer as speakable.	Good

Voice Search Readiness

Signal	Finding	Status
Conversational long-tail	Questions such as 'Who issues GST notices in Chennai, the State or the Centre?' answered in plain English.	Good
Local signals	NAP, geo-coordinates and opening hours in schema on every page; Tamil-language content is not yet on the site.	Needs Attention

Priority Recommendations

Priority	Issue	Dimension	Effort	Impact
Critical	Fix Google Business Profile hours to Mon–Sat 9:30 AM–6:30 PM, Sunday closed	Local / GEO	5 minutes	Map pack eligibility
Critical	Start a review engine: ask every client at the close of each engagement, by WhatsApp with the review link. Target a steady flow every month; no incentives, no drafting	Local	Ongoing	Map pack and AI trust: the single biggest lever
Critical	Add ICAI membership number and firm registration number to src/lib/site.ts (trust line and schema switch on automatically)	GEO	10 minutes	Trust for foreign and high-ticket buyers
Critical	Measure: Search Console, GA4 with WhatsApp-click and call events, and a lead log (source, service, city, qualified Y/N) so 30/day can be tracked	All	1 day	You cannot manage what is not counted
High	Build the urgent-intent pages first: plans 22 (GST notice), 25 (income tax notice) and 27 (NRI tax)	SEO / AEO	3–4 weeks	Fastest-converting buyers
High	Listings: ICAI CA Connect, Justdial, Sulekha, ClearLevel, RevenueBase, with exact NAP and hours	Local / GEO	1–2 days	Appear where 'CA firms in Chennai' lists rank
High	GBP: add services for each of the 41 services (grouped), secondary categories, weekly posts, real office and team photos	Local	2 hours then weekly	Map pack for service searches
High	Execute the per-service plans in waves (section 11): structure pages, supporting posts, comparison pages, tools	SEO	12 months	Coverage for every service keyword
High	Gulf NRI page covering Saudi Arabia, Qatar, Oman, Kuwait and Bahrain (UAE has its own page), each with its own treaty and residency points	SEO / GEO	1 week	Largest Tamil NRI pool after the UAE
High	LinkedIn programme for CA Rushil C S: weekly posts for foreign parents, founders and CFOs; guest articles on taxguru.in	GEO	Weekly	High-ticket leads and AI citations
Medium	Turn /career into an articleship page; expand /contact and /videos	SEO	1 day	Catches student traffic; removes thin pages
Medium	Question-phrase the H2s on the hub pages (/goods-and-services-tax, /direct-tax, /annual-compliance-package)	AEO	Half a day	Snippet and AI extraction
Medium	Reduce homepage HTML (293 KB) and check Core Web Vitals on mobile	SEO	1–2 days	Speed and mobile ranking

Priority	Issue	Dimension	Effort	Impact
Medium	Facebook business page and Wikidata entry added to sameAs	GEO	2 hours	Entity strength
Quick Win	Shorten the Anna Nagar page title to 60 characters	SEO	2 minutes	Clean SERP display
Quick Win	Rename the Calendly event to match the 15-minute consultation	CRO	5 minutes	Consistency builds trust

What's Working Well

Strength	Evidence
Technically clean site	182/182 URLs return 200; zero duplicate titles or descriptions; one H1 everywhere; self-canonicals; 370/370 images with alt text.
One page per keyword	Homepage owns 'CA firm in Chennai'; Pvt Ltd, virtual CFO and GST litigation pages each own their cluster; the duplicate Chennai hub now 301s to /.
Connected schema graph	Firm, CA Rushil C S, Service, FAQ and Breadcrumb linked by @id on every page.
Answer-first writing	111 pages open with a direct answer; 102 pages carry fact tables with government fees, forms and deadlines.
ICAI-safe copy	No published professional fees, ratings or turnaround promises; independence rule published on /how-we-work.
High-ticket layer	Buyer rows with pre-filled WhatsApp enquiries on the subsidiary, US/UK/UAE/Singapore and virtual CFO pages.
Existing ranking	#3 for 'GST litigation and appeals in Chennai' and #1 organic for 'CA firm Anna Nagar' (live checks, 2 Nov).

The Path to 30, 60 and 100 Leads a Day

Honest framing

No firm can promise the #1 Google position for every service: government portals (gstat.gov.in, mca.gov.in), national platforms and list articles hold many top spots, and rankings change. What can be planned is: top-3 organic or map-pack placement for the service keywords that bring buyers, citation in AI answers, and a funnel that turns visits into qualified enquiries. All rates below are planning assumptions to replace with your own measured numbers after month 1.

How leads add up

Leads per day = organic search visits × conversion rate + Business Profile calls and WhatsApp taps + directory enquiries + LinkedIn, referral and partner enquiries. A CA-firm service page typically converts 2–4% of relevant visitors into an enquiry (assumption; measure yours).

Target	Leads a month	Organic visits needed (at 2.5%)	From Google Business Profile	Directories and listings	LinkedIn, referrals, partners	Realistic time frame
30 a day	≈ 900	≈ 25,000 a month → 625 leads	≈ 150	≈ 75	≈ 50	6–12 months
60 a day	≈ 1,800	≈ 50,000 a month → 1,250 leads	≈ 300	≈ 150	≈ 100	12–18 months
100 a day	≈ 3,000	≈ 80,000 a month → 2,000 leads	≈ 500	≈ 250	≈ 250	18–24 months

Every figure in this table is a scenario, not a forecast. Replace the conversion rate and channel shares with month-1 actuals from the lead log.

What each stage needs

Stage	Content	Authority	People and capacity
10 a day (base)	4 money pages done; build plans 22, 25, 27 (urgent intent)	GBP hours fixed; 100+ reviews; 5 listings	Founder plus one person answering WhatsApp within working hours
30 a day	All 11 written plans built (≈ 250 pages over 12 months, 5–6 a week)	200+ reviews; 20+ quality links (guest articles, associations, ICAI chapter talks)	Dedicated intake person; WhatsApp Business with labels and quick replies
60 a day	Plans for the remaining 30 services written and built; Tamil summaries on key pages	300+ reviews; regular press and guest articles; webinars	2 intake staff; scoping calls by 3–4 CAs; CRM
100 a day	Full coverage of all 41 services, all TN cities and 6 countries	Recognised Chennai brand: 500+ reviews, steady mentions	3 intake staff in shifts incl. Gulf/US hours; triage of

Stage	Content	Authority	People and capacity
			about 3,000 enquiries a month (≈ 1,000 staff hours)

Geography plan

Market	How buyers find you	Pages that carry it	What to do next
Chennai (priority 1)	Map pack, 'near me', organic service searches	Homepage, 4 money pages, 12 area pages + 6 HNI locality pages	Reviews, GBP services and posts, area 'Services for <area>' blocks, Tamil summaries
Coimbatore	Organic 'company registration / GST / income tax in Coimbatore'	/company-registration-coimbatore, /gst-litigation-coimbatore, /income-tax-consultant-coimbatore	Manufacturer content (pumps, foundries, textiles), served-online statement; no GBP there (one office only)
Rest of Tamil Nadu	City + service searches	16 company-registration city pages, 6 GST litigation cities, 3 income tax cities	Upgrade the top 5 per plan 01; add 'Services for <city>' blocks; Tamil summaries
Singapore	LinkedIn, Google for 'India subsidiary', NRI searches	/india-subsidiary-for-singapore-companies; NRI Singapore page (plan 27, NEW)	Build the NRI Singapore page; LinkedIn posts in SGT hours; ICAI Singapore chapter (verify)
UAE / Dubai	WhatsApp, NRI and subsidiary searches	/india-subsidiary-for-uae-companies, /nri-tax-services-uae	Tamil association and ICAI Dubai chapter outreach (verify; check ICAI Code of Ethics before any referral arrangement)
Gulf (Saudi, Qatar, Oman, Kuwait, Bahrain)	NRI tax and property searches	None dedicated yet	One Gulf NRI page with a per-country treaty table (NEW)
US / UK	LinkedIn, Google for 'India subsidiary', CPA outsourcing	US and UK subsidiary pages, CPA and UK-practice outsourcing pages, NRI USA/UK	LinkedIn programme; webinars in US/UK hours; trial-batch offer for CPA firms

40	Virtual CFO	/virtual-cfo-services	Money page + high-ticket layer	2
41	Management Consultancy	/management-consultancy	Page live; plan needed	6

Wave 1 = highest ticket or most urgent (start now); wave 6 = low-ticket feeders. Waves follow plan 90, mapped to your 41-service list.

90-Day Roadmap

Weeks	Work	Owner	Measure
1	GBP hours; ICAI numbers on site; Search Console, GA4 events and lead log; review-request routine starts	Founder, front office, developer	Baseline leads/day recorded
1–2	Listings: ICAI CA Connect, Justdial, Sulekha, ClearLevel, RevenueBase; GBP services and categories	Front office	5 listings live, NAP identical
2–4	Build plan 22 (GST notice) and plan 25 (income tax notice) money-page upgrades	Content lead, CA	Pages live; notice enquiries logged
3–5	Build plan 27 (NRI) upgrades + Gulf NRI page; Tamil summary boxes on the four money pages	Content lead, CA	NRI enquiries by country
4–8	Plans 01, 02, 20, 21: supporting and comparison pages (2 a week)	Content lead	Impressions and clicks per cluster
5–13	LinkedIn programme (weekly) and one guest article a month	CA Rushil C S	Profile views, referral visits
6–10	Write and start plans for wave-1 services 8, 13 and wave-2 services 32	Marketing lead	Plans signed off
8–12	/career articleship page; /contact and /videos expanded; shared /tools route with the first 3 tools	Developer, content	Thin pages cleared; tool usage
13	Review: leads/day by source and service, cost per lead, what to double	Founder	Next-quarter targets set

KPI dashboard (weekly)

KPI	Source	Why it matters
Qualified leads per day, by service, city and country	Lead log	The goal: 30, then 60, then 100
WhatsApp taps, calls, bookings	GA4 events, GBP insights, Calendly	Shows which pages and the profile convert
Impressions, clicks, average position per money page	Search Console	Shows ranking progress before leads move
New Google reviews per month	GBP	The single biggest map-pack lever
AI citations for 10 tracked prompts	Manual check in ChatGPT, Perplexity, Gemini	GEO progress
Scoping calls → proposals → clients	CRM / lead log	Turns leads into revenue

First 10 actions this week

1. Fix the Google Business Profile hours (Mon–Sat 9:30 AM–6:30 PM, Sunday closed).
2. Send the ICAI membership number and firm registration number; add them to src/lib/site.ts.

3. Connect Search Console and GA4; confirm the WhatsApp and call click events fire.
4. Create the lead log (date, source, page, service, city/country, qualified Y/N, outcome).
5. Start the review routine: every closed engagement gets the review link on WhatsApp the same day.
6. Claim and complete ICAI CA Connect, Justdial and Sulekha with identical NAP and hours.
7. Add all service groups to the Google Business Profile with short descriptions and links.
8. Brief the content lead on plans 22 and 25 (notice pages) as the first build.
9. Rename the Calendly event to the 15-minute consultation.
10. CA Rushil C S signs off the repeated 'verify' items across the plans once, starting with s.149(3) and due dates.

Glossary

Term	Meaning
SEO	Search Engine Optimisation: making pages rank in Google's normal results and map pack.
GEO	Generative Engine Optimisation: making AI tools such as ChatGPT, Perplexity, Gemini and Google AI Overviews name and cite your firm.
AEO	Answer Engine Optimisation: writing short, direct answers, tables and FAQs that search features and voice assistants can lift.
Map pack	The three businesses shown with a map for local searches like 'CA firm near me'; driven mostly by the Business Profile, reviews and proximity.
Qualified lead	A real need, at least one useful detail (service, city, deadline), contact by WhatsApp, call, form or booking, and likely to buy within 90 days.
