C S Rushil & Co., Chartered Accountants · Anna Nagar, Chennai

13 November 2026

Executive Summary

csrushil.com is technically one of the cleanest CA-firm sites in Chennai. All 201 sitemap pages return 200, and each has one H1, a self-referencing canonical, unique titles and descriptions, and valid JSON-LD. The pages are fully server-rendered and every major AI crawler is allowed. Content depth is high (1,500–4,300 words on the money pages), and 81% of the site's 2,821 H2 headings are already phrased as questions.

The firm still does not rank for "CA firm in Chennai": it is outside the Google top 50 and the Bing top 20. That search is decided by the Google map pack, where rivals hold 110–726 reviews against the firm's 57. Below the map, organic results go to directories and lists (Justdial, Sulekha, IndiaMART, Quora). The site has no measurable link authority: it is absent from the Common Crawl web graph down to position 27.5 million.

The most urgent issue is that none of the 12–13 November fixes are live. They are committed on branch seo/rank-ca-firm-chennai-2026-11 and need the owner's approval to deploy. The biggest opportunity is off the site. YouTube, Justdial and Firm Dhundo still show the old Vadapalani address, and fixing that, plus steady genuine reviews, GBP categories and Bing Places, is what moves the map pack.

Dimension	Score	Status	Key Takeaway
SEO	**8/10**	Strong	Technically near-perfect. Rankings are held back by authority (links, reviews, citations), not on-page issues.
GEO	**7/10**	On Track	74/100. Crawl access and SSR are excellent; the entity is split across two addresses and two LinkedIn pages.
AEO	**8/10**	Strong	Question headings, FAQ and HowTo schema and tables are strong. Some answers ran over 60 words; the key ones are now trimmed.
Combined	**23/30**		Fix the off-site entity, then deploy the branch.

Can csrushil.com reach the top for "CA firm in Chennai"?

Yes, but in stages, and no one can guarantee a Google position. For this search Google shows the map pack before any website. The map pack is ranked by relevance, the searcher's distance from the office and prominence (reviews, citations, links). The firm's profile is already the most complete in the set: correct hours, a booking link, owner replies on reviews, 19 photos and the only recent post. Its gaps are review count and distance.

Realistic targets: top 3 on the map within about 3 km of Anna Nagar in 1–3 months; organic page 1 for "tax consultant in Chennai" in 3–6 months; top 3 across central Chennai for "CA firm in Chennai" in 6–12 months (roughly 150–250 reviews, clean citations and earned links); top 5

for "private limited company incorporation in Chennai" in 12+ months against national filing platforms.

SEO (Search Engine Optimization): Making pages easy for Google and Bing to crawl, understand and rank in the classic results and the map pack.

GEO (Generative Engine Optimization): Making the firm and its pages easy for AI answer tools (Google AI Overviews and AI Mode, ChatGPT, Perplexity, Copilot) to identify and cite. Google says this is still SEO: the same ranking and quality systems apply.

AEO (Answer Engine Optimization): Writing short, direct answers, question headings, lists and tables so search engines and voice assistants can lift an answer straight from the page.

Map pack: The three businesses Google shows on a map above the website results for local searches; ranked by relevance, distance and prominence.

NAP: Name, Address, Phone: it must match exactly everywhere the firm is listed.

Citation: Any listing of the firm's NAP on another site (Justdial, Bing Places, Apple Maps, directories).
